

Press release Calendar Week 26/I

You need extra space?

Rameder carrier systems and roof boxes will provide it

It is always the same: when going on holiday, your boot will soon be overloaded. But there is hope: you can always buy extra space at **Rameder's** online shop, www.kupplung.de, with its almost 100 different roof boxes (from EUR 139) by different manufacturers. You can choose by colour, shape and volume, just as you see fit. The boxes can take between 50 and 75 kg, are made of weather-proof and easy-care plastic. They are also TÜV/GS-tested and provide high quality at low costs.

When filling them, the maximum load must not be exceeded, of course. You should also put heavy parts in first centrally. And to prevent luggage from slipping and make full use of the box, fill it flush. You should also secure your luggage with straps (always included) and cover sharp edges with a blanket or so. To protect your luggage from theft, during a break, for example, **Rameder** roof boxes can be locked. If you want to be on the safe side, also choose a lockable carrier system.

And **Rameder**, Germany's leading provider of automotive transport accessories, does also sell roof box storage systems for your garage. Both the wall mount (from EUR 29.99) or the ceiling lift (from EUR 119) are convenient and space-saving.
