Leisure and pleasure

Rameder's new MFT Easy Mount tow bar bike carriers

Cycling tours in nature are something which, almost of necessity, never quite really starts outside your front door. And if you first have to take your bike to whatever starting point in overcrowded busses, trains and trams, you may, perhaps, rather like to stay home. But cycling is healthy, keeps you fit and is a really recreational activity, especially if you can take your bike by car, without any fuss or pain in the back. With its new and clever **MFT Easy Mount** towbar bike carriers, **Rameder** makes this happen. Get it in our online shop at www.rameder.eu for [two bikes](#) (€369) or [three](#) (€449).

Quick-release system

With an **MFT Easy Mount**, bikes cannot only be easily carried, its assembly is also easy. Just use the quick-release system to affix the 14.5kg or 19.5kg aluminium carriers to your car's towbar. You can release either model easily by stepping on the pedal and thus make your boot accessible again.

Perfect for e-bikes

E-bike fans can also buy this in conscience, for either carrier can carry up to two. Being mounted on the towbar also means that the **Easy Mount** is low enough not to have to lift heavy bikes up into the clouds, as it were. And this convenient bike carrier can be folded together and stored in the bag that comes with it.

The **MFT Easy Mount** makes even loading the bikes a summery pleasure. You can affix this light and thought-through carrier to the towbar without much fuss and just as easily remove it. This provides utmost flexibility and means minimum input. Buy the **MFT Easy Mount 2 and 3** from the **Rameder Shop** at www.rameder.eu.
